harnessing a legacy to create the future

THE STORY BEHIND A MILLION MORE

OUR HOME

Amali was brought to life in the city where it all happens, Dubai, by two people who helped make it happen. But in a city of landmarks and 'bigger is better', Amali does not exist to change the landscape...we believe in changing luxury. With each project, we redefine luxury living for the contemporary elite because we shift the focus onto what luxury means to them and their vision, rather than what's been prescribed by another brand (real estate, fashion, automotive or otherwise), master developer or even architect.

How Amali enriches its destinations: positions them as places of exclusive, rare prestige with its finger on the pulse of luxury.

OUR ORIGIN

Being the driving force behind the transformation and success of DAMAC Properties over the years has inspired Amira and Ali Sajwani to envision the future of real estate.

A manifestation of this vision is their move into the ultra-high luxury space with Amali. Amali's philosophy centres around creating unparalleled living experiences, a concept that benefits largely from the collective experience of its founders as they come together to create something exceptional, bespoke and truly special.

OUR CORE

Amali is a category definer, an ultra-luxury, boutique developer that eschews excess and homogeneity for highly-personalised, one-of-a-kind lifestyles that are the manifestation of rarefied, sophisticated and refined living.

luxury in the details

WHAT MAKES US DIFFERENT

CLASSIC REAL ESTATE LUXURY

- Low levels of extreme personalisation beyond room configuration and superficial amenities - too plug and play
- Oversaturation of concepts (communities, branded residences) can lead to loss in prestige
- Strong pitch leading to the high potential of unfulfilled promises
- 'Gimmicky' amenities that can be underutilised
- Marketed as investments that are then either subject to market fluctuations and/or lead to empty units
- The focus is either on the product (for ultra-luxury properties) or the developer (for master- planned communities/towers)

AMALI REAL ESTATE LUXURY

- Highl levels of personalised and bespoke products in terms of lifestyle, FF&E as well as OS&E, curated / provided by select partnerts
- One-of-a-kind homes that are perennial status symbols
- By working on a limited number of projects at a time, we are able to be even more in control of the process to ensure quality
- No area is underused or equipped with an amenity that does not have a part to play in the owner's life
- Limited availability leads to higher capital appreciation
- Amali is a concept. It is not a product with aesthetic signatures but a philosophy that is different to each person who ascribes to it

WHO WE SPEAK TO

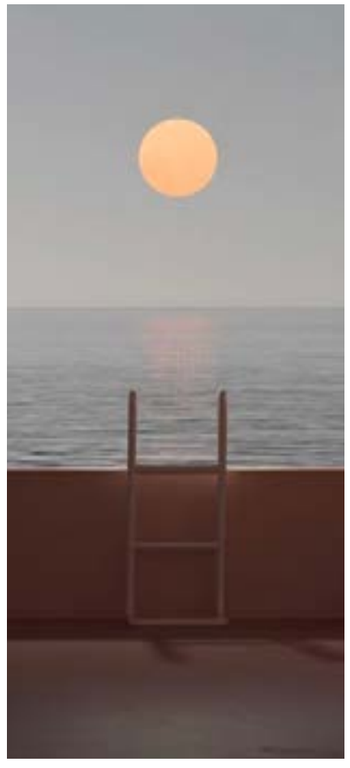

CONSCIOUS CONNOISSEURS.

Society royalty, culture-shapers and those who know what they want as they believe that luxury lies in prestige, not pretence. They are true connoisseurs, patrons of the causes they care about, those who don't invest in projects without the word 'passion' in front of it.

We cater to the UHNWIs who are interested in truly setting down roots and living in a place that provides them with the level of exclusivity, personalisation and privacy that they can't quite get anywhere else, as well as the international jet-setters who need a pied á terre.

AMALI PROPERTIES

The dream of waking up to waves lapping on the shore, evenings being caressed by the stars, never-ending days unwinding in an unencumbered oasis where even your most unimaginable fantasy is at your fingertips...there's nothing quite like it, because there is nothing else quite like you.

In a world overwhelmed by excess, this is simplicity at its most transcendent. Its purest, most beautiful form, an expression of your desire, fulfilled. An expression of desire unleashed onto glorious canvases in destinations that feel untouched and unspoiled, unleashed by the world's finest artisans, architects and craftspeople, handpicked and discerning of the visions they choose to bring to life.

Amali is a concept. A kaleidoscope of exquisite spaces and environments, so entwined with what you had always hoped for...you have to pinch yourself to see if it's real. It is.

Amali. Redefining luxury living, one dream at a time.

PHOTOGRAPHY GUIDE

The overall aesthetic of lifestyle and nature images should be one that evokes a sense of ethereal beauty. Models should feel like they have been almost caught of guard, in a candid moment of relaxation / celebration. Colour grading that plays on the project›s colours should be taken into consideration and images should entice the audience into our world rather than shock or jar.

PHOTOGRAPHY GUIDE

The uniqueness of natural textures is a direct reflection of the Amali promise of personalisation. To that end, keeping the intrinsic aesthetic of the substrate being photographed in mind, abstract, macro shots and untypical crops of materials should be used to exude a sense of hyper-considered luxury and attention to detail.

BRAND BOOK & VISUAL GUIDELINES

3D RENDER GUIDE

First and foremost, the renders need to look as real and natural as possible. Since Amali properties are not solely for investment purposes, we need to draw the audience in and make them feel like the environments are enticing and welcoming. Take care to use shadows and open spaces to convey this sentiment - an almost minimalist approach to further drive home the fact that we believe in luxury lying in simplicity not excess.

3D RENDER GUIDE

Furthermore, soft tones create an almost dreamy effect, while the thoughtful use of lighting allows the luxurious textures of our materials to shine - resulting in an almost tactile visual. The image should not be cluttered, each element should be given space to breathe.

3D RENDER GUIDE

To add an additional layer to the mood-setting renders, utilise hues that evoke a feeling of a dreamscape.
